DELIVERING SUSTAINABLE PRODUCTIVITY GAINS ON BOTH SIDES OF THE FARM GATE.

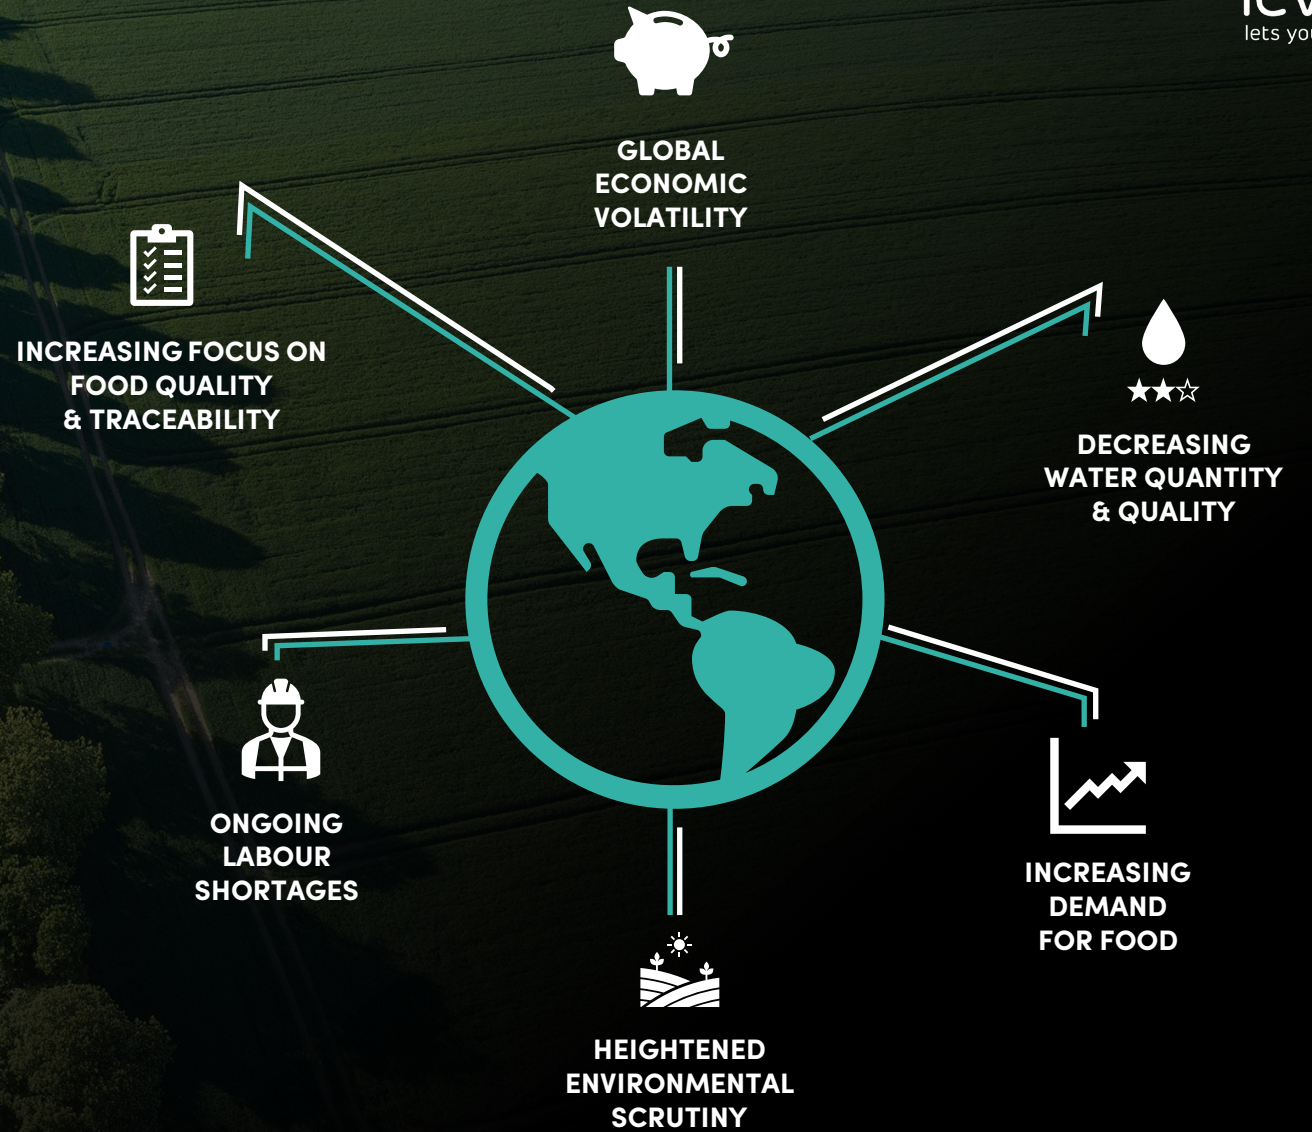

OUR STORY

WE USE **ON-FARM DATA** TO
MAKE AGRICULTURE MORE
PRODUCTIVE AND SUSTAINABLE.

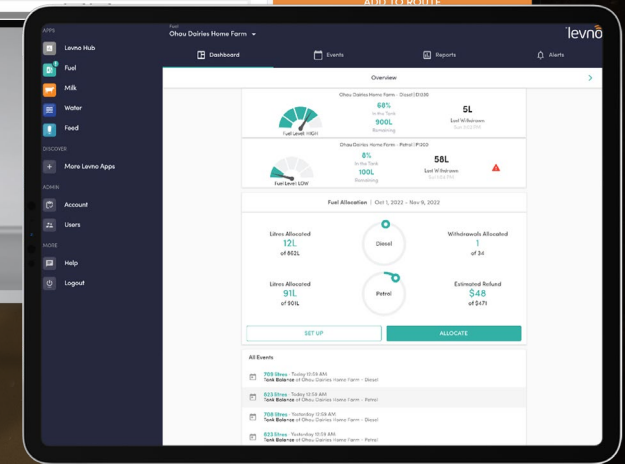

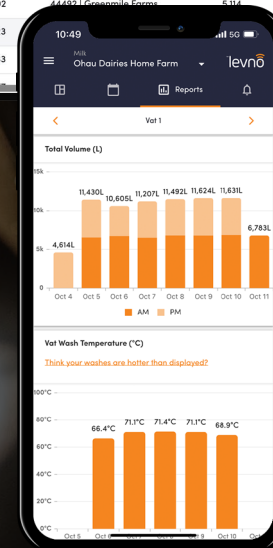

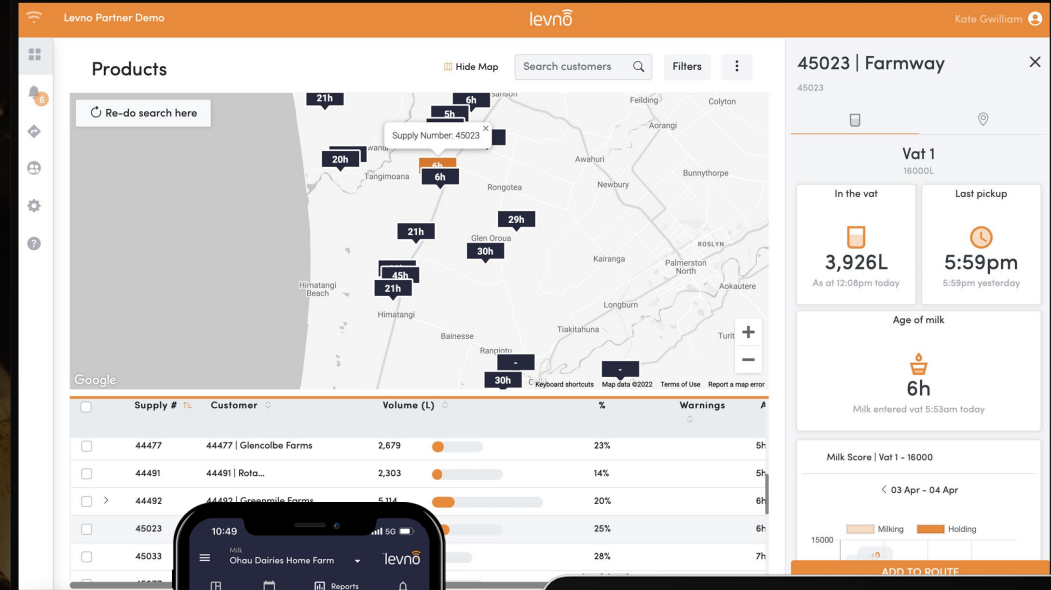

THE PROBLEM

GLOBAL INDUSTRY CHALLENGES THAT LEVNO IS HELPING TO SOLVE.

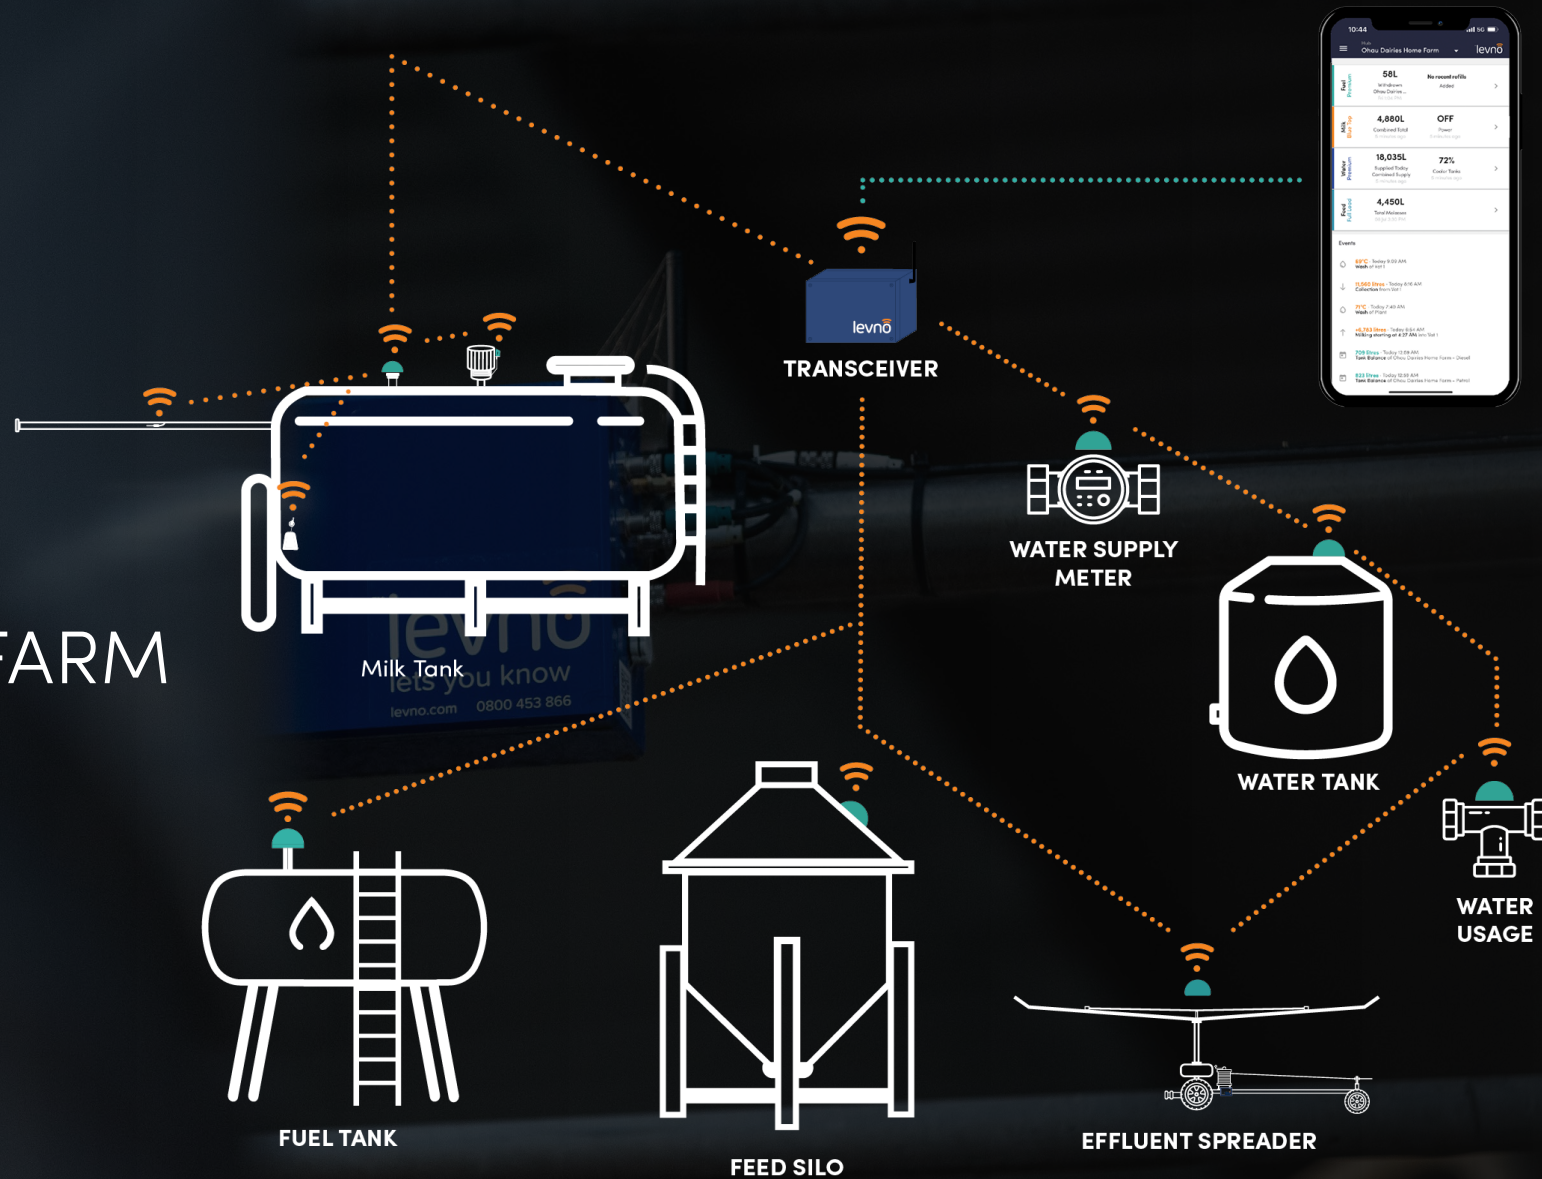

WHAT WE DO

WE TAKE CRITICAL FARM DATA AND TRANSFORM IT INTO ACTIONABLE INSIGHTS.

BUILDING A CONNECTED FARM

CUSTOMERS

WE TRANSFORM **FARM DATA**
INTO **STRATEGIC AND**
OPERATIONAL INTELLIGENCE
FOR AGRIBUSINESSES,
FARMERS AND REGULATORS.

HIGH QUALITY MILK
AND MORE EFFICIENT
MILK TANKER
ROUTING

LESS WASTE, MORE
SUSTAINABLE AND
COMPLIANT OPERATIONS

EASIER COLLECION
AND PROCESSING
COMPLIANCE DATA

DAIRY COMPANIES

FARMERS &
GROWERS

REGULATORS

FUEL SUPPLIERS

FARMING GROUPS

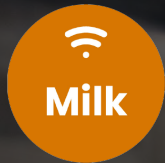

IMPROVED ROUTE
OPTIMISATION
AND CUSTOMER
SERVICE

FEED SUPPLIERS

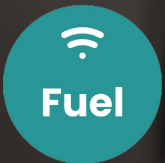

GREATER OPERATIONAL
VISIBILITY ACROSS
GROUP

REDUCED LOGISTICS
COST AND IMPROVED
CUSTOMER LOYALTY

PRODUCTS

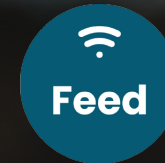

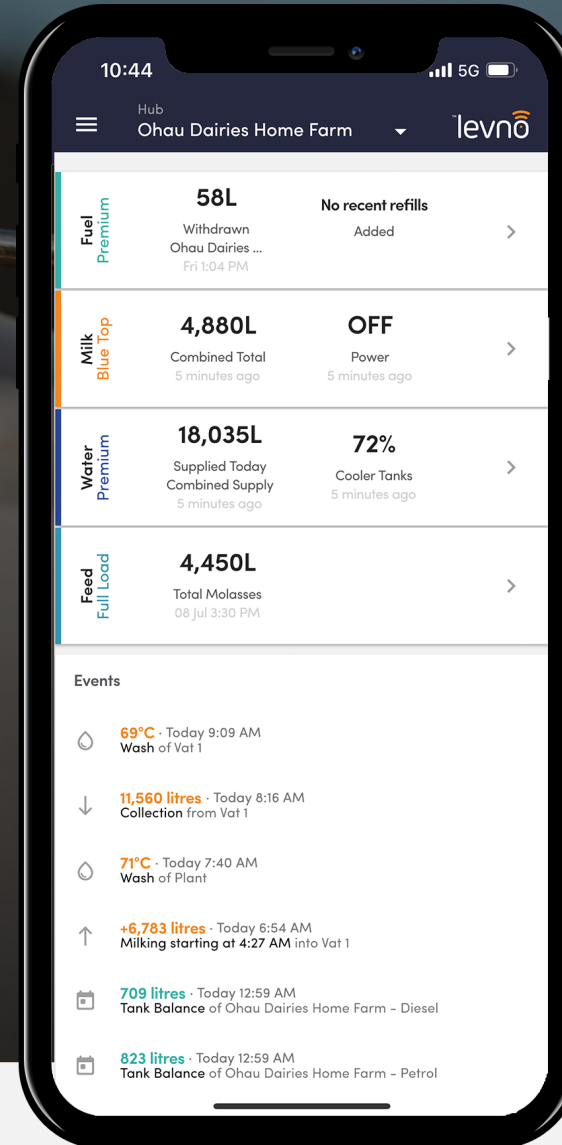

Provides the farmer and their dairy company with the critical insights they need to guarantee the production of high-quality milk and optimise its collection.

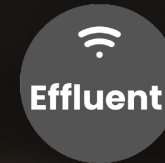

Provides the user and their fuel supplier with the real-time data needed to monitor usage and guarantee continuous supply in the most efficient way.

Provides the farmer with the real-time data they need to monitor their usage, detect leaks and automatically provide their regulatory body with the compliance data they demand.

Provides the user and feed supplier with the insights they need to monitor usage and safeguard supply whilst reducing logistics costs.

Provides the farmer with the peace of mind that effluent distribution and storage is performing optimally and always compliant.

WHY LEVNO

WE ENSURE THE BEST **QUALITY MILK**
GETS FROM COW TO FACTORY IN
THE **MOST EFFICIENT** WAY.

GUARANTEE HIGHER QUALITY MILK

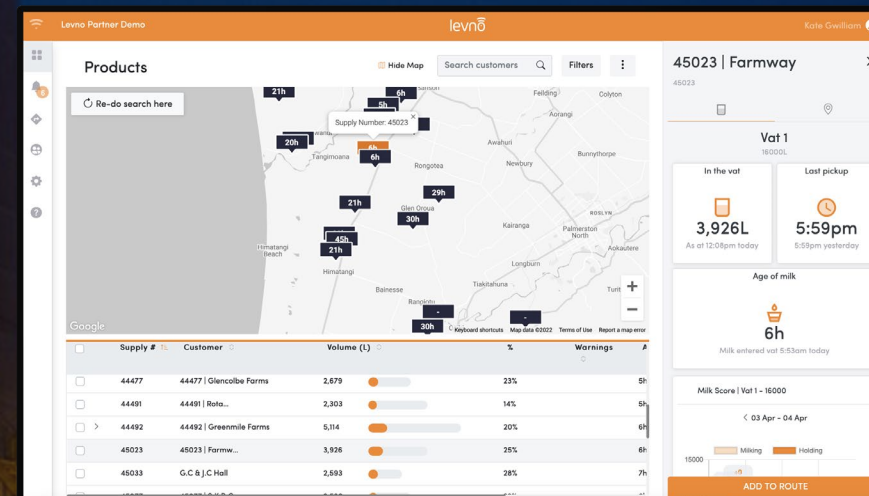

ENABLE TRUE ROUTE OPTIMISATION

SAFEGUARD THE MILK

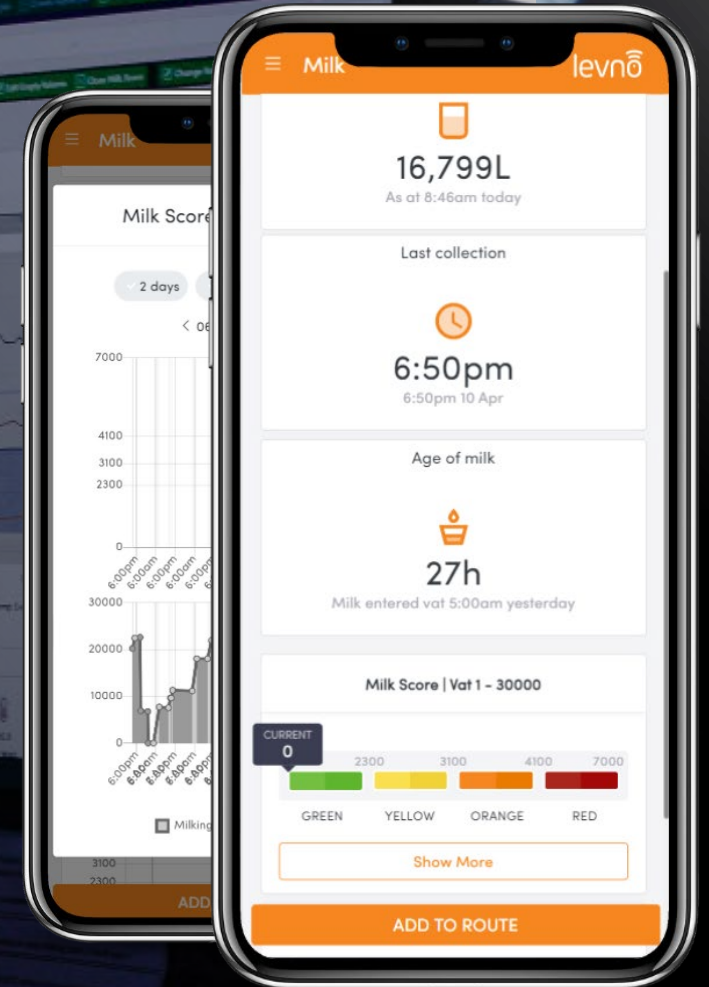

PROVIDE TRACEABILITY

HOW DOES IT WORK?

MILK IS CONTINUOUSLY MONITORED FROM THE TIME IT LEAVES THE COW BASED ON A BESPOKE MILK QUALITY SCORE (MQS).

IF MILK IS NOT STORED UNDER OPTIMAL CONDITIONS, THE MQS RISES AND LEVNO INTERVENES.

FONTERRA CASE STUDY

LEVNO MONITORS OVER HALF OF FONTERRA'S 19B LITRES OF ANNUAL MILK PRODUCTION.

THE PARTNERSHIP HAS ACHIEVED THE FOLLOWING:

\$12M OF MILK SAVED FROM REACHING CRITICAL GRADES

67% REDUCTION IN BACTERIA LEVELS

60% REDUCTION IN MILK INSURANCE CLAIMS BY FARMERS

17 TANKERS TAKEN OFF THE ROAD

4% REDUCTION IN ON-ROAD CO2 EMISSIONS

65 MINS INCREASE IN AVERAGE DAILY COLLECTION WINDOW
