Current Insights

## Clarospec<sup>®</sup> MVP pre-prototype evolution

- Hyperspectral camera mounted over belt for Salmon and to the side for lamb saddles
- Portable system for use in food processing plants
- Designed to scan 10 lamb saddles per min
- Quality insight presented in real time. (Intramuscular fat content, pH)
- Data uploaded automatically to cloud database, connected to Plant database.

Clarospec®  
integrated  
into Scott  
Technologies  
LEAP4  
Robotic  
system

# Clarospec<sup>®</sup> Conveyor belt system for lamb saddles

## Commercialisation Journey

- KiwiNet Emerging Innovator 2020
- Food Fibre Agritech Challenge 2021
- Sprout (2021 cohort B)
- Kellogg Rural leaders programme - 2022 'Research From the inside out – pathways to market for investigator-led research'
- KiwiNet, Tier 1 and 2, Spinout programme 2022-23

# Research from the inside Out

## Research Questions:

1. How does an aspiring founder navigate their way to becoming a founder?
2. How can the chances of successful commercialisation be increased?

# Key Observations

- Most technological development in public institutions in NZ is aligned to “Deep Tech”
- Silos largely counterproductive to Deep Tech
- Ad-hoc teams - setting the scene for poor communication and lack of trust
- Commercialisation not incentivized and has a low profile
- The IP or the execution - polarizing views
- Risk aversion is a barrier

[Link](#) to image source

# Technology Transfer

- Problem: Public Good > Private Enterprise
- Tension: IP vs. Execution
- Resources: Capital, IP, Contacts
- Team: Complementary
- Personal: Passion, Drive, Mortgage?
  
- **Proposal**
- Mentorship
- Terms Sheet (start co-designing the terms early)
- CRM, Traction etc
- Get permission to act like a start-up

# Team

**Dr. Cameron Craigie**

- Commercial & Meat Science
- 12 years experience in meat sector R&D
- meat industry networks & relationships

**Dr. Mos Sharifi**

- Mechatronics Engineer
- Multiple successful deployments of tech in industry

**Dr. Sam Hitchman**

- Physics, Medical imaging
- AI, image segmentation
- Modelling

**Craig Squire**

- Business Mentor
- law and investment banking
- Commercialisation and innovation, with a strong focus on market discovery
